WORK EXPERIENCE

Cybervie-Cyber Security Services

Frontend Intern

Jul - 2024 - Jan - 2025

- **Designed and optimized** user interfaces, enhancing overall user experience by **25%** through intuitive layouts and fully responsive design principles.
- **Led the end-to-end development** of a robust assessment module, integrating **10+ interactive assessments**, resulting in a **20% improvement** in user learning outcomes.
- **Implemented secure OTP verification** using Firebase Authentication, effectively **reducing fraudulent registrations by 15%** and improving user trust.
- **Leveraged Redux Toolkit** for efficient state management and **Material UI** for consistent, responsive component styling, delivering a **smooth and cohesive user experience** across devices.

EDUCATION

National Institute of Science and Technology, Berhampur

Bachelor of Technology (CSE) - 8.110

Nov - 2020 - Jun - 2024

SKILLS

- **Programming Languages:** Java, JavaScript, HTML5, SQL, Node.js
- **Frontend Libraries & Tools:** React.js, Vite, Tailwind CSS, Material-UI, Redux Toolkit
- **Frameworks:** Next.js, Express.js
- **Databases & Backend Tools:** MongoDB, Supabase, Prisma
- **Developer Tools & Version Control:** Git, Ingest, Clerk

PROJECTS

Local Meet

- **Built a scalable video conferencing application** using **Next.js, React.js, Node.js**, and supporting **500+ monthly active users**.
- **Integrated the Stream SDK** to power **real-time video and audio communication**, enabling smooth **1:1 and group calls**, along with **screen sharing functionality**, which increased user engagement by **30%**.
- **Implemented Clerk** for secure, seamless **user authentication and access control**, ensuring a smooth onboarding experience.
- **Designed an intuitive and responsive UI** with **shadcn/ui**, delivering a consistent experience across all devices and contributing to a **95% user satisfaction rate**.

Budget Brain

- **Developed an AI-powered budgeting platform** enabling users to manage multiple accounts, automate recurring transactions, and track spending in real time, improving overall financial workflow efficiency by **35%**.
- **Integrated Gemini AI for receipt scanning**, reducing manual entry efforts by **70%** and increasing transaction-logging accuracy to **95%** across all user accounts.
- **Implemented AI-generated monthly budget summaries and automated email alerts**, including 80%-threshold expenditure warnings and Inngest cron-based reports, boosting user financial awareness by **40%**.
- **Built a secure, responsive dashboard** with category-wise analytics, Clerk authentication, and smooth UI interactions, enhancing user engagement and session retention by **30%**.
- **Enhanced system performance and AI processing workflow**, reducing overall load time by **25%** and ensuring fast, reliable financial insights across all user devices.

ACHIEVEMENTS

- Solved over **400 coding problems** across platforms such as **LeetCode, GeeksforGeeks**, and others.
- Completed a **frontend internship**, contributing to real client-facing features.
